ABOUT US

100%
RICE

Our company was founded by a joint venture between Thai and Japan. With our perfect quality control following the standards of HACCP and GHPs our exceptional products have been exporting worldwide. We are located in a small town of Lamphun, Thailand where Glutinous Rice has been cultivated for generations with our traditional recipe combined with high technology machinery, we are constantly developing new and creative products. Most recently, we have put emphasis on developing organic rice crackers, low cholesterol, fat free, and Non-GMO. Also, what makes us unique is that we can produce rice crackers in limitless shapes and flavors to fit our customer's need. We believe our rice crackers can fulfill your expectations.

We strive to provide the highest quality product, which begins by using the highest quality ingredients of reputable rice and natural seasonings to ensure the specifications are met. Furthermore, we ensure the quality of our products during production through international standards of **FDA (Food and Drug Administration), HALAL, GHPs/HACCP, BRC, KOSHER, SEDEX, Green Standards.**

MESSAGE FROM THE PRESIDENT

" It gives me the greatest pleasure that you have selected our organization. We provide the best quality products equally to all of our customers. We are always available for any particular needs that you may require. We sincerely appreciate your continuous support. "

MANUFACTURING PROCESS

01 STEAMING & AGING

Refine the best selected rice into the base dough and kept in low temperature room for 48 hours.

02 CUTTING

After 48 hours the base dough is cut into the required size and shape.

03 BAKING & ROASTING

Bake and roast in both traditional and down secret recipes.

04 FLAVORING

Flavor the crispy rice cracker with best selected ingredients to ensure that our rice cracker is tasty and healthy.

05 QUALITY CONTROLLING

Quality is what we do care about most to ensure our customers will always get the best products.

06 PACKING

Rice cracker is packed with high technology packing machine that preserves its crisp and crunch.

あられ

Unlike the production of other snacks, rice cracker is the result of time and effort. In order to produce the highest quality “**Arare**”, for Japanese name, more than two weeks of complicated preparation of raw materials, base dough, cut dry and roast must be undertaken. The result is snack that is unique in its texture, nourishing in its ingredients and versatile in its consumption.
